Tasting the landscape's essence

PICNIC – NATURE – ECO-CHEF

Natural eco-picnic

Tasting the landscape's essence

A meal made with ingredients from local organic farmers, wild plants picked at the moment and inspired by traditional recipes of each place, to taste and enjoy in the middle of nature and a rustic setting. During the previous walk, we collect the ingredients needed for the dishes.

A meal based on wild plants in the middle of nature, inspired by a selection of plants chosen by Evarist March, botanist at El Celler de Can Roca, and by the sensibility of eco-chef Lola Puig. A menu filled with beauty and health.
