

**Walking through
the clouds**

...between wild tapas

BALLOON – GASTRONOMY – SCENERY

Walking through the clouds

...between wild tapas

Discover nature in a new and unique way: by air and land, between volcanoes and aromas. Accompanied by an expert guide in landscape and local plants, we will fly over a volcanic region and on a leisurely hike we will look for the most delicious greens to prepare all-natural tapas.

In the foothills of the Pyrenees, surrounding medieval villages and hidden under a lush green, we find the volcanoes of La Garrotxa. Where lovers of nature and of new sensations will enjoy the silent landscape from a bird's eye view. A view that extends from the snowy peaks to the beaches of the Mediterranean.

During the hot-air balloon flight, we can enjoy the magnificent landscapes and interpret where aromatic herbs and well-known mushrooms of the local cuisine are hiding. Back on the ground, we will harvest these herbs - and mushrooms according to the season – and finish by cooking and tasting them if we like. A journey from the history of the healthy plants of our grandparents to the wildflowers used in the most modern restaurants.

At the Vol de Coloms facilities, we can prepare a delicious lunch for you, a natural picnic, a wine pairing, or show you how to make your own Ratafia, Catalonia's most famous herbal liqueur!

Season: All year round

Duration: 1,5h balloon flight | 1,5-2h walk

Location: Nature Park of the Garrotxa Volcanic Region

Group: Maximum of 9 people

Public: Adults and children from 8 years old accompanied

Difficulty: Low
