WINE WORLD - NATURE - CERTIFICATE OF ORIGIN

D.O. Empordà Alt Empordà: *Tramuntana wine*

In the north of the Empordà the contrasts are even more intense and the world of wine is an intrinsic part of the history of the place. Its diverse landscape allows us to find vineyards right next to the beach, to an ancestral alluvial plain or in the many coastal areas of Cap de Creus or the foothills of the Pyrenees to the sea. A land of strong contrasts of all kinds that leaves no one indifferent both in the field and in its expression in its wines. A territory where the human hand has adapted to the demanding weather conditions, mainly from the intense northerly winds, which still today mark a way of being.

The walks can be in vineyards that end in one of the lonely coves, in very particular and curious plains or in other areas depending on the interest of the public to end with a tasting of wines and products of the DO.
