COSTA BRAVA – MEDITERRANEAN – COASTAL TRAIL

Walking the coastal trail of s'Agaró

The Hidden Natural Treasures of the Costa Brava in s'Agaró

We invite you to discover a new kind of tourism unlike anything you ever experienced at the Costa Brava. Discover the Mediterranean Diet through wild plants.

A short walk begins just outside the hotel Alabriga; gently blending into its surroundings is a famous path that carves along the entire Costa Brava, known as the Camino de Ronda. While each season thousands of people walk along this trail, many might not know that some of the best kept secrets of the Mediterranean diet are waiting to be discovered here – ancient plants used by our ancestors as well as plants used today in the World's Best Restaurant, El Celler de Can Roca.

On a brief stroll, we'll introduce you to the culinary subtleties that might otherwise go unnoticed: Spicy flowers, salty leaves, crisp stalks, sweet roots; a walk to surprise the senses with wild tapas.

The route is easy and fun for the whole family. The activity can be complemented with a wine pairing with flowers.
