SUSTAINABILITY - TEAM - IMPACT

CSR:

Your hands united for a healthier nature

These are times of global change but we continue to dream of a very green and healthy planet, where we and our disciples enjoy quality forever.

In this activity you will put a grain of sand on the road to well-being, through a small action that improves a natural space: a river, a forest, a beach or a traditional path.

We propose you to be part of our personal project of Naturalwalks and contribute to the improvement of our precious nature through a playful activity where actively, with teamwork, you will contribute to improve diversity and natural life, promoting native species, bettering the conditions of sensitive inhabitants (beaches, rivers or streams) and therefore also our precious life refuges.

At the same time you will be healthy, you will get to know the people you work with better and hidden details of Nature that will make you happier.

Season: All year round

Duration: From 2,5 to 3,5 hours

Location: All Catalonia

Group: Maximum of 18 people

Public: Adults

Travel agency GC - 004776
